

6K COMMITMENT:

6K Systems, Inc. is committed to providing superior products and services. *We realize that quality coupled with customer service is the key to customer satisfaction.* To achieve this objective, we work in partnership with each of our customers to design, build and integrate processes, systems, and solutions that best meet their business objectives (technical, regulatory, budgetary, schedule). Following thorough testing and evaluation, we seamlessly integrate the optimum solution into our customer's business environment while minimizing interruption and maximizing existing information technology and human capital investments.

*We realize that success is not an accident!
Rather, it is a culmination of
well planned, well tested, well executed,
and well measured hard work.*

6K employs industry best practices (OMB, GAO, SEI/CMM, PMBOK) to develop processes and procedures which ensure compliance, consistency, reliability, and efficiency. As these standards evolve and change, we enhance our levels of quality and service.
